Root: natural cosmetics from Riza, Corinthia, made with olive oil, honey and grape

About

At Xyleri Valtou, near Riza in the hills above Xylokastro, Root makes soaps, fragrances and creams in small batches. The idea is simple: clean ingredients, inspiration from nature and handmade quality, so the product reaches you fresh.

The business in this article is a Visit Corinthia partner. We describe it using what it says about its own work; hours and details can change, so check its page before you go.

What Root makes

The range is small and carefully made, with names inspired by Greek mythology and the Mediterranean:

- **Pure Elia** — a natural olive oil soap, for men and women.
- **Elixir of Elysium** — a body soap with olive oil and honey.
- **Daphne & Dionysus** — a soap with olive oil and grape.
- **Mediterranean Rose** and **Aegean Essence** — eau de parfum.

What “natural” means to Root

“Natural” is an easy word to print on a box. Root explains what it means with specific points:

- According to the company, the products are made exclusively from **edible ingredients**.
- They are **vegan**, **SLS-free** and **dermatologically tested**.
- **No product is ever tested on animals.**

- The facility runs an **ISO 22716** quality system, the international standard for good manufacturing practice in cosmetics.
- The packaging is **100% recyclable** and carries **Braille** for visually impaired customers.

For businesses: wholesale and soaps with your own name

Root works mainly **wholesale**, which is why its online shop shows no retail prices. It also makes **custom soaps and packaging** with your brand identity — an idea, for example, for a guesthouse or a gift shop that wants something from the region. For prices and orders you contact Root directly.
